ROC
BUSINESS TECHNOLOGIES

Did you Know?

ROC Business Technologies was created to support chiropractors and their practices.

We work with ChiroTouch, Eclipse EHR, ChiroPad/LifeSystems, Naomi, and many more.

Our goal in the IT world is to make sure that your business is functioning every day and to promptly solve IT issues.

Testimonials:

Dr. Ben — ROC is awesome! Highly recommend them. I've been super needy with super small stuff like hooking up a printer, fax, etc. They really know there stuff.

Dr. Bruce — I hired Ryan to be my corporate IT guy, and I'm glad I did! He has maintained my network, installed the server and generally kept me up and running. This is crucial in today's world of electronic health records. I can contact him when there's a problem and he will either log in and fix it or show up in person. His service makes the small business feel like a major corporation with IT staff.
